

Re-read John 15:5-8 1-3 times.

Reflect on the repeated words, verbs, and titles of God. (underline & highlight)

Recite the memory verse of the season: John 15:5

**1. Transactional Christianity serves God to live or for something in return, the friend serves out God out of love in response to God's love. What are ways we can grow our love for God and our experience/belief of His love for us?**

---

---

---

**2. God died and rose to love and save our brothers and sisters, therefore a way to touch His heart is by loving His people. What are some ways we can love our fellow believers practically with our actions and in deeply with our affections?**

---

---

---

**3. We are loved by a perfect God, but He commands us to love imperfect human beings. A reason He does this is so that His love may flow through us to others. How can we depend on God to give us more of His heart to see and love others like He does?**

---

---

---

**4. Unconditional love is often the most unappreciated love. Firstly, how can we appreciate God's love more? Secondly, what are ways to remind ourselves that even when our love may be unappreciated by people, it is appreciated and will be rewarded by Him?**
